

7 AI TOOLS I WISH I KNEW EARLIER

Save this post

Smartupscale.com

With the help of Ai, upscale your image quality by just dropping your image.

WRITERSONIC.COM

The screenshot shows the homepage of Writesonic.com. At the top, there's a navigation bar with links for 'Products', 'Pricing', 'Tutorials', 'Sign in', and a 'Sign up' button. The main headline reads 'Write Better Marketing Copy, Effortlessly.' Below it, a sub-headline says 'Say goodbye to writer's block. With Writesonic's AI-powered writing tools, you can generate high-performing Ads, Blogs, Landing Pages, Product Descriptions, Ideas and more in seconds.' A blue 'Start Writing For Free' button is prominently displayed, followed by the text 'No credit card required.' Below this, a note states 'Available in: 🇺🇸 English, 🇫🇷 French, 🇸🇪 Spanish, 🇮🇹 Italian, 🇩🇪 German, 🇵🇱 Polish + 18 more languages.' A screenshot of a browser window showing an 'Interactive Demo - Facebook Ads Generation' is also visible.

It's AI based website for writing professional copy for your freelancing work or business.

Just choose a template, write short description & generate great copies.

It's an expert deck designer, so you don't have to be. Make your business look brilliant.

Pixelhunter.com

**Pixelhunter – free
AI image resizer
for social media.**

Cropping each and every image by hand can be tiresome. Pixelhunter utilizes amazing Uploadcare Intelligence API to recognize objects and crop pictures automatically, in a smarter way.

Just upload your image of any size and it will be automatically resized to each and every of 102 sizes we support. AI is there to ensure that your image is resized in the best way that a robot can do.

Other than that, Pixelhunter features real pro-tips that are there to

Upload your picture and in one tap, you'll get all Social Media size posts.

One of my favorite Ai image resizer for Social Media handles.

An Ai color tool which helps you to find and save color palettes that are commonly used by you.

It automatically creates a palette for your future designs.
